MEMORANDUM TO MS. WARD AND
MESSRS. OSDENE, PAGES AND SPEARS

Attached is a draft agreement between CIAR and TNO Laboratories regarding the forthcoming IPAQ monitoring aboard SAS. It could obviously be made longer and more comprehensive. We have kept it relatively simple in hopes of reducing the risk that TNO would want its lawyers to spend weeks studying it. As it is, Dr. Gaisch has told me that TNO predictably has its own standard form contracts, so this may be wasted effort. But it is worth a try.

Please let me have any suggestions or changes you have as soon as convenient. If possible, it should be presented to TNO early next week.

I apologize for the need for quick responses.

Charles Lister
